As a highly motivated and driven individual, I am seeking a challenging position in a technical organization where I can enhance my strengths and skills while contributing to the institution's goals and achieving excellence. With my basic knowledge in programming languages such as C++, C#, Python, Java, and Django, I am con dent in my ability to learn and adapt quickly to new technologies and programming languages. I believe that continuous learning and upskilling are essential to staying ahead in the constantly evolving tech industry. Future target to upgrade my problem-solving skill and become expert in coding.
